

# Mohammed Jamir Uddin

**Full-Stack Software Developer · .NET Core & React**

C/O Nazu Monjil, 2nd Floor, Inside of YWCA School,  
Chandgaon, Chattogram-4212, Bangladesh

## Rony International Accounts Software

A complete, full-stack **Enterprise Resource Planning (ERP)** platform for multi-branch accounting, procurement, sales, inventory, fixed assets, payroll, budgeting, tax, and financial reporting — unified in a single secure system.

ASP.NET Core

Entity Framework

SQL Server

React 18 / Vite

JWT & WebAuthn

RESTful API

RBAC

PDF/Excel Reports

Swagger/OpenAPI

# Other International Software Solutions

Beyond the University/Accounting ERP, the same full-stack architecture and development workflow have been applied to build a range of production-grade enterprise management systems, demonstrating versatility across industry domains.

## Pharmacy Inventory / Stock Management

Medicine batch tracking, batch & expiry management, purchase/sales, and stock alerts.

## Hospital Management System

Patient records, appointments, billing, and department/staff administration for healthcare facilities.

## HR & Payroll Management System

Employee records, salary structure, payroll runs, tax deductions, and payslip generation.

## Appointment Booking System

Real-time slot booking, calendar management, and automated notifications/reminders.

## Transport Management System

Fleet, route, and driver management with scheduling and tracking.

## School / College Management System

Admissions, attendance, examinations, and result processing for K-12 and college institutions.

## Employee Attendance & Leave Management

Biometric/manual attendance capture, leave requests, approvals, and reporting.

## Hotel Booking & Management System

Room inventory, reservations, check-in/out billing, and occupancy reports.

## Core Technology Stack

ASP.NET Core (.NET 8)

Entity Framework Core

SQL Server

React 18 / Vite

JWT & WebAuthn/FIDO2

RESTful API

Role-Based Access Control

PDF/Excel Reporting

Swagger/OpenAPI

AI-Assisted Development

**Open to:** Freelance contracts and full-time roles building full-stack enterprise applications, ERP/management systems, and secure, scalable web platforms.

Secure sign-in screen for the ERP system using registered email and password credentials.
